## GREAT INCREASE IN FARM ANIMALS

Effect of the Railroads on Growth of Live Stock Interests.

FIGURES PREPARED BY UNION PACIFIC RAILROAD

In 1905 in Country Traversed by Road There Was 98,620, - 221 Animals.

To show what effect the Union Pacific and its connections have had on the growth of the live stock interests of the country, since its completion May, 1899, is in part the purpose of a bulletin just issued. Counting 1905 as the beginning of this industry in the West, in January of that year there were 89,752,398 farm animals in the United States with a farm value of \$1,537,764,028 in depreciated paper money, the assumption of specie payments not taking effect until January 1, 1899. In 1905, in the States and Territories on and tributary to the Union Pacific railroad, there were 28,620,321 animals at a farm value of \$1,475,237,350 in gold or its equivalent. In number this exceeds the number in the entire country in 1898, by more than 8,000,000 animals.

The number in Utah in 1905 was 3,157,242 animals with a total value of \$38,225,451 or an average of \$12.40 each.

**HARRIMAN'S RECORD RUN.**

Schedule of Magnate's Race Across the Continent.

E. H. Harriman, president of the Southern Pacific, arrived in New York City over the New York Central, by a regular train (the Empire State Express), on the evening of May 8. In 23 minutes less than three days from Oakland, Cal. to Buffalo Mr. Harriman traveled by special train. The memorandum of times given to the reporter on arrival in New York was as follows:

Left Oakland, Cal., 7:32 p. m., Saturday.

Sparks, Nev., 5:05 miles, 6:47 a. m. Sunday.

Green River, Wyo., 109 miles, midnight, Sunday.

Omaha, Neb., 327 miles, 2:45 p. m., Monday.

Chicago, Ill., 448 miles, 12:45 a. m., Tuesday.

Buffalo, N. Y., 246 miles, 12:30 p. m., Tuesday.

New York, 440 miles, 10 p. m., Tuesday.

The least time ever before made over this route was in October last, by special train all the way, but over the Erie instead of the New York Central east of Buffalo. That trip also was made by Mr. Harriman. The distance shown in that record was 323 miles, and the time was 72 hours, 12 minutes. The New York Central is 15 miles longer than the Erie.

**YELLOWSTONE PARK BRANCH.**

Will Not Be Finished for Travel This Year.

In discussing the Yellowstone Park branch of the Oregon Short Line yesterday, W. H. Bancroft said that the road is now about eight miles north of Ashton on toward the park with about fifty miles yet to be completed. It will be late this fall before the branch is finished and in operation. Too late for tourist travel this season. Stage lines will run from the point reached by the road to the Yellowstone. The park opens on June 1 and the first Idaho excursion is on June 1.

**REPAIRS AND EQUIPMENT.**

Pennsylvania Issues Notes for \$50,000,000.

NEW YORK, May 15.—Kuhn, Loeb & Co. have purchased \$50,000,000 4 1/2 per cent notes of the Pennsylvania company, guaranteed by the Pennsylvania Railroad company. The notes are for eighteen months, beginning May 1, 1906. The issue price is 98 1/2, and interest, but large purchasers of the notes will receive a commission, making the return interest yield equivalent to five per cent.

The money derived from the sale of the notes will be used largely for repairs and equipment.

**Railroad Notes.**

P. T. Clayton, car service agent of the Salt Lake Route at Los Angeles, came in from the West yesterday.

On an average three train loads of oranges arrive daily from California over the Salt Lake Route.

C. H. Bean, live stock agent of the Missouri Pacific at Pueblo, arrived in the city yesterday morning.

L. O. Leonard returned yesterday from Idaho, where he has been engaged in the railroad man's favorite occupation these days—loading wool.

J. H. Burtner assumed charge of the Eastern division of the Clark road yesterday as successor to J. L. Moore. Mr. Burtner, however, is still in California.

For the local educators the Salt Lake Route has made a rate of \$12.00, round trip, from Salt Lake to Los Angeles or San Francisco via San Francisco and the Southern Pacific. Tickets will be on sale May 25 and 26, June 1, 3 and 16. A transit limit of ten days in each direction will be given with final returning limit October 31.

A shipment of eleven cars of sheep were loaded at the Salt Lake stock yards last evening for Rosalia, Kansas. The shipment amounted to 329 head and was a fine bunch of stock.

Thomas J. Kay, city passenger and ticket agent of the Chicago & Northwestern at Boston, was in Zion yesterday. Mr. Kay, although he is from the Hub, is one of the "boys." He is stuck on Zion and thinks that in comparison Boston is an antiquity. Of course it is.

If you are contemplating buying a piano, now is the time to get it. High-grade instruments made for San Francisco being sold at about half price. Carstensen & Anson Co.

**DEMANDS INVESTIGATION**

Body of Zion City Woman May Be Exhumed.

CHICAGO, May 15.—Investigation into the manner of the death of Mrs. Ruth Cantel, wife of Overseer H. E. Cantel of Zion City, has been demanded by her brother, Harry Stevens of Paso Robles, Cal., and it is possible that her body will be exhumed for a post-mortem examination.

Overseer J. G. Spelcher, Zion's health commissioner, who issued the permit for her burial, said there was no cause for an inquest, although he would not object to it.

**HEMMED PILLOW CASES—45 by 36, worth 15c each. Mid May sale .....12 1/2c**

**AWAITING INSTRUCTIONS**

Proceedings in Arrest of Capt. Going Are Held Up.

HONOLULU, May 15.—The arrest of Captain Going of the steamer America, on March 31, for an alleged infraction of the shipping laws, was followed by a cable message from Washington directing the local officials not to proceed further in the matter pending instructions, and to make no other arrests.

**Will Arrest Others.**

It is now reported that the action of the officials has been approved and that they have been instructed to proceed. As a result the arrest is expected, as they call here, of the captains of the Mongolia, Manchuria, Siberia, Chila, Comte, Hongkong, Nippon, Dore and Korea, on charges of violating the Federal shipping laws by failing to provide legal steaming accommodations for passengers bound to this port.

The principal ground of complaint is the assertion that Asiatics are not provided with separate quarters for the sexes.

**HUNGRY THREE DAYS**

New York Woman Faints in Court Corridor.

NEW YORK, May 15.—Without food for three days, and waiting in the hope that her husband, held on a charge of assault, might be tried and released, to return to win food for the family, Mrs. Mary McDewitt of No. 623 Water street, fainted in the corridor of the Criminal Court building. Her three-year-old daughter, also faint with hunger, collapsed at the same time. With the mother was her two-month-old infant, and two older children, all half starved.

When the woman was revived, and she made known her plight, which no one in the court had understood before, her husband's case was immediately called. He pleaded guilty and was released by Judge O'Sullivan after a scathing lecture.

On February 23, McDewitt was driving in his truck in Mercer street, when he

**INDIA'S RULER SAYS**

**ADVERTISING IS GOOD**

Maharaja of Baroda Tells of Conditions in His Own Strange Country.

NEW YORK, May 15.—His Highness the Maharaja Gajekwar of Baroda, who arrived here on the Celtic on Sunday, yesterday proclaimed himself a believer in advertising, and said that it would be a good thing for India when it learned to advertise. He said that he would not mind having a republic, if it were a good one, but that education was necessary first, and it was not an easy task to educate the millions of India. Just at present, the Prince admitted, he himself took the place of a republic.

**Holds Life in Hands.**

"I make the laws," said he. "I have the power of life and death. There is a cabinet, whose advice I take if I choose. Sometimes, if they think a decree I have issued is wrong, and I find their views are based on good grounds, I reconsider it."

On the somewhat delicate subject of his relations with the British Government, the Prince proved quite communicative. The British Government, he said, had the power to interfere, but it did not assume to govern. That, he said, would be regarded as interference.

**Strange Comparison.**

"It is like an earthen pot in a brass jar," he said. "They travel together, but if you stretch the one you break the other—the weaker one, of course."

The Prince seemed to be rather

amused at the description by missionaries of the conditions in India. He said, he said, was clearly a matter for the individual conscience.

"Our people, just like any other people," he said, "want to be let alone on the subject of religion. They hold certain beliefs as sacred, and they will not be changed. Their philosophy is elastic. I think we should leave a man's religion to himself. If he lives his life so that he can die at peace with his conscience, he should have the right to make a choice of his own way. Religion to me is a study. It is a school for thought, and most interesting."

However, he added, the missionaries had done a lot of good in founding hospitals and teaching people the dignity of labor.

Don't deceive yourself with the idea that foreign goods are better. Try MOUNT'S pork and beans as an example of the superiority of Utah goods.

**Military Prisoners Leave.**

NEW YORK, May 15.—Thirty-one military prisoners from Castle William will leave Governor's island today in obedience to instructions from Washington that whenever possible one passenger coach load of prisoners shall leave New York the middle of every month for the military penitentiary at Fort Leavenworth, Kan.

**Three Million Fish.**

CHICAGO, May 15.—Three million fish were shipped to the city yesterday on their way to colonization in Lake county, Illinois. A single car carried the entire colony, for not one of the number was more than three days old and did not require much space.

**Steamer Delayed One Day.**

HAVANA, May 15.—The Ward line steamer Vigilance, which was reported from Cape Lookout, May 12, to be on fire reached this port from New York today one day late.
